

Let your child
Be MORE

YOUNGIN'

International Pre-School & Child Care

The world has changed.

‘Intelligent children must become engineers and doctors’ no longer applies; ‘all intelligent children must be good at math and science’ is no longer true. Children are gifted – each in a different way, but the gift of each child needs to be found and nurtured from an early age. This goes far beyond conventional education systems, preschools and day cares which treat each child as the same.

There is a huge need to change the way we work with children, to find a way that helps a child identify and realize her or his unique intelligence combination.

Welcome to **YOUNGiN’**

Welcome to one of India’s first ‘International Pre-School and Child Care’ programs stimulated by the ‘Theory of Multiple Intelligences’. As Dr. Howard Gardner states children will have a combination of different types of intelligence. We believe that a musician is as much a genius as a mathematician; that the hands can be as gifted as the eye or the thinking brain. We create the atmosphere & infrastructure and nurture each child. We ensure they find their combination of intelligences; that they understand, harness and grow them. **We work with children to help them experience more, understand more, grow more and be MORE.**

“I want my children to understand the world, but not just because the world is fascinating and the human mind is curious. I want them to understand it so that they will be positioned to make it a better place.”

- Courtesy Dr. Howard Gardner

Dr. Howard Gardner
(Theory Of Multiple Intelligences)

“...education, which treats everybody the same way, is actually the most unfair education. Because it picks out one kind of mind and says, “If you think like that, great; if you don’t think like that, there’s no room on the train for you.”

- Courtesy Dr. Howard Gardner

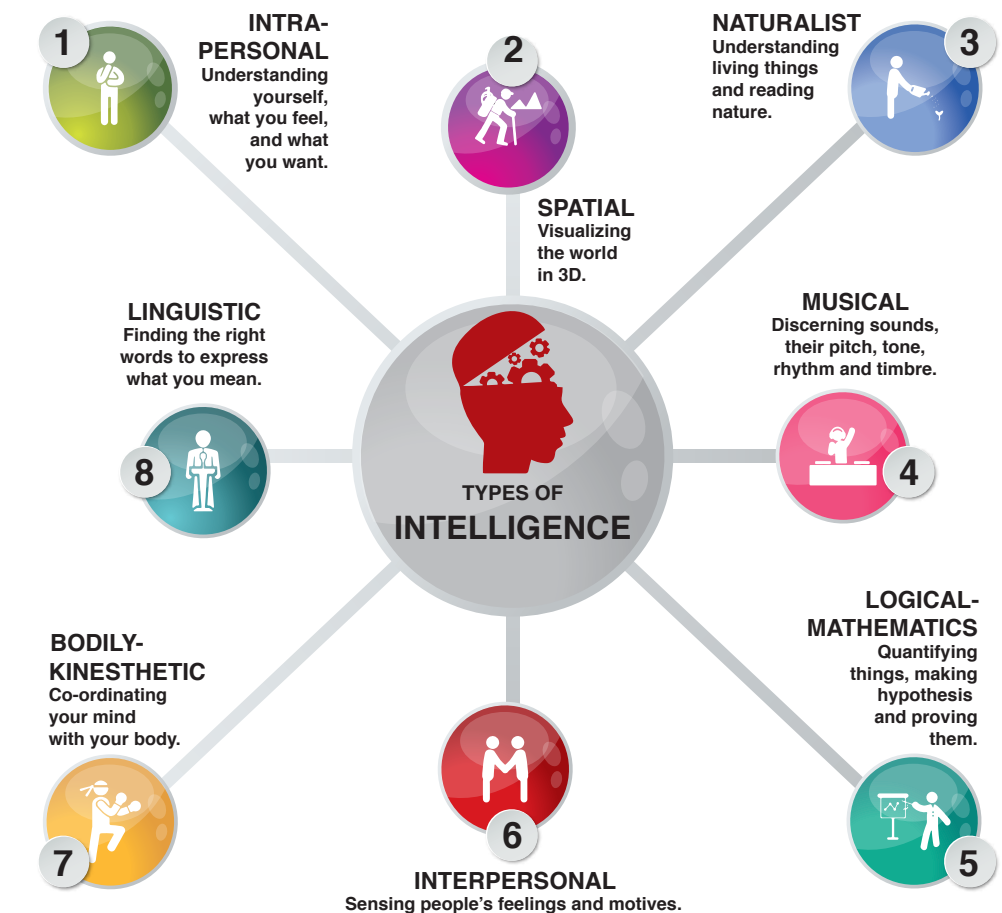

So what is the theory of Multiple Intelligences?

At **YOUNGIN’** we are highly influenced by Dr. Howard Gardner, an internationally renowned psychologist, educationist and professor at the Harvard Graduate School of Education.

Dr. Gardner’s acclaimed theory of Multiple Intelligences shatters the age old myth that intelligence is of a single type and challenges the educational approach that treats all children as being the same.

Our Core Understanding

Each child is intelligent in her or his own way. They just cannot just be categorized as intelligent, average and below average. We provide the exploratory space for a child to find what engages her or him, to identify her or his area of greatest potential. We boost the talents identified and help them grow to be MORE.

Vision

To educate, motivate, nourish and nurture children in our unique blend of fun, safe, stimulating, loving and positive environment.

Mission

Our mission is to provide a highly effective educational program and quality child care for all families in the community, through our professional and dedicated team, where children develop positive social skills, values and learn about their world through developmentally-appropriate activities in a stable, secured and learning environment that fosters a solid foundation for lifelong.

Our Approach

Our meticulous educational program ensures that we impart not only academics, but also co-curricular, social and life skills. We are committed to provide children with an inspiring, compassionate, fun and learning environment where they can also learn to build friendships and get a sense of belonging.

Our Curriculum

At school a child studies, at home a child learns. At **YOUNGIN'** we have a curriculum that provides everything the child needs to evolve, develop and grow holistically. This curriculum brings focus on eight specific areas of personal and intelligence development. Not just that, we also work with our children on grooming, etiquette, personal presentation and societal interaction skills. We help develop confident individuals who interact with others and face situations with great control.

At YOUNGIN' we ensure holistic development of each child by focusing on all eight areas of development:

Literacy Skills

Fine Arts

Numeracy Skills

Physical Development

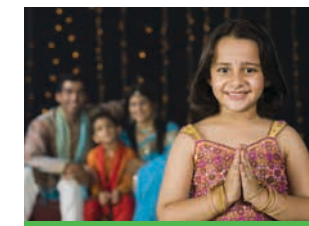

Conceptual Skills

Personal Health & Safety Skills

Social Studies

Social & Emotional Development

Our Offering

Unlike a school or a crèche, **YOUNGIN'** has specially designed support programs not only to prepare toddlers for school but also a fabulous support system for school going children that develops the brain, reduces stress, channelizes skills and energy and teaches importance of good citizenship and healthy living standards.

1

Child Care Program

At **YOUNGIN'**, we provide a home-like care setting and have a more flexible schedule for working parents. We also offer comprehensive Child Care services for school-age children, toddlers and infants, designed with the child's safety, well-being and early childhood education in mind.

Age Group: 18 months to 8 years

Timings: From 8 a.m. to 8 p.m. and customized as per the Parents' needs.

2

Pre-School Programs

We offer specialized Pre-School Educational and developmentally appropriate Programs that are integrated with activities specifically designed for the Preschoolers in mind. We lay a strong foundation in which children will gain the necessary knowledge, skills, values and the right attitude to succeed.

Age Group: For Playgroup - 2 years and above, For Nursery - 3 years and above

Timings: From 9 a.m. to 12 noon.

3

After School Activity Programs

There is a wide range of activities that are offered at **YOUNGIN'**. These programs are very structured and planned for all age groups. We understand the need for support and the quality of life that every child deserves and our programs helps all the children to reach their full potential.

Age Group: 2 to 12 years

Timings: Offered on weekdays and all day long over the weekend, as suitable to the Child's / Parents' timings.

Committed to the finest details

MORE Personalized Attention

We take pride in maintaining one of the lowest student-teacher ratio in this space to ensure each of our children feels loved and attended to.

We have associated with DRISHTI, a professional organization in the field of Counseling and Psycho-educational Services, whose qualified team will identify and support our children with learning, handling their emotional and behavioural difficulties.

Driven by Technology

YOUNGIN' connects the parents with a high end communication system provided through portal and mobile apps. This is a simple, powerful and effective school management software through which the parents can get the latest updates for events, celebrations, holidays, activities, announcements, etc. on their mobile phones.

We also offer additional educational exposure to our children to explore and stay connected to the computing technology.

'Yummy in the Tummy'

Children are fussy eaters, their taste buds need to be pampered without compromising on nutritional values and facilitate for healthy eating. We impart healthy eating habits while feeding our children five lip smackingly delicious meals. The food is always freshly prepared keeping in mind the flavours and tastes liked by children. Meals and snacks include a variety of vegetarian food consisting of grains, fruits, vegetables, fluid milk and milk products - all monitored by a renowned nutritionist. What's MORE, Jain food is also made available on request.

Learning From Life Around You

Field trips are an integral and mandatory part of our sensory feast. Our children witness and learn from life in motion, whether at a nature park or a museum or a factory or a post office or a military base. It's all part of the MORE.

MORE Activities, MORE Fun Learning

Learning is always exciting at **YOUNGIN'**. We partner with the best professionals for numerous fun-learning activities and content to give your child MORE.

We call our teachers 'Mother Teacher' for a reason.

Our 'Mother Teachers' will always know which child eats what, who needs a little extra cajoling, who has really slept and who might just be pretending, whose buttons will need to be done up and who will spend long minutes playing with shoe laces. Favourite things, pet peeves, little quirks, cute habits and secrets not to be told are all stored in her

mind. This is the comfort our teachers promise to both the children and their parents.

To ensure comfort, safety, security, hygiene and fun, our teachers are ably supported by assistant teachers and superbly trained care-takers and support staff.

Nurturing in a Safe Environment

Research confirms that the first five years are important for the development of a child's brain, and the first three years are the most critical in shaping the child's brain architecture. At **YOUNGIN'** we understand that children thrive when they are nurtured in safe and secured environment. We take great efforts and look into every detail to provide an extremely safe and caring environment to the child as we know it will play a very important role in shaping the way they learn, think and behave for the rest of their lives.

All centres of **YOUNGIN'** are under CCTV vigilance.

The centre will soon be enabled with RFID which would help the parents to stay connected with their child.

Doctors, Nutritionist, Paediatrician, Dentist, Optometrist, Nurses, Speech Therapist are all available on call.

Inspiring The MORE Experience

In The Loving Memory Of

**Late Mr. Jitendra Tater and
Late Mrs. Vimla Tater**

Visionaries.
