ABOUT US

To introduce ourselves, House of Learning is an organisation that took birth out of the passion to empower parents, teachers and children for this competitive world. It is a group of people who either run their own centre or conduct programs for parents, teachers and children in various ventures or work with them as freelancers.

What we do

We are presuming that you are here because you are closely associated with children. You know, how important it is to be with the child and feel happy about it, and not only this you want to continuously add value to your own parenting, Teaching or mentoring style. If we talk about parenting, It is the most important job of one's life but for which one gets no training. And to make it worse, it is firmly believed that since our earlier generations not only managed but excelled in it without any formal guidance, there is really no need for any training. But times are changing- today the environment is more democratic, whether parents/teachers agree or not, the new generation is getting more freedom than they ever got, mass media plays a more dominant role than ever and children are more aware and street smart. So they are required to be confronted with a different approach. Even if we are trained for teaching/parenting still, there is an element left which is the personal warmth, personal bond, willingness to remain down to the kid's level and hence making learning & living a joyful journey for them forever.

House of learning's vision is to touch lives

We want to elight people from the train of their knowledge, beliefs and perspectives, just, so they don't remain the same but start creating new ways, get empowered to empower children.

By 2020 we see ourselves celebrating learning with many children, schools, families and corporates.

We do this through different sessions based on self realization, research and developments.

The whole idea is to share program designs, insights about children and adults, methods of learning, share resources, tools & techniques and offer support to each other in respective endeavours.

With this note we hereby offer you to be a part of the family, contact us when ever u feel like getting off your TRAIN and wanting to embark on the NEW ONE, full of new meanings about life long process LEARNING, which is also an important area to get empowered on, while handling children.

OUR MODULES

PARADIGM SHIFT

This program is going to be an intense and mind exploding journey into oneself. Through this program you will be able to see new vistas, so that you are able to respond to and work with children in much more effective ways.

COUNSELLING

Inter personal interaction with the specific purpose to find out various solutions for the problems. Our counselling helps anyone in improving decision making, modification of behaviours, improving personal effectiveness to resolve various problems while dealing with children.

JAGRITI (PARENTING SESSION)

We all as parents are working with best intentions. Though sometimes our action are not effective. Our workshops in Jagriti will take parents to whole new world of insights, leaving each parent to explore their parenting in their own unique way.

TTT (TRAIN THE TRAINER)

This program is designed to turn participants into top-notch facilitators. Our Train the Trainer Program helps both experienced participants and fresher to polish the skills they need to facilitate that's participative, fun, and has a lasting impact.

CONSULTANCY

We can be great use to-NGO's (working with children) and schools. Joining hands with us will keep you set up your internal self and continuous training system, curriculum support, assessment tools, setting up your own preschool by your own name.

TALASH (CURRICULUM SUPPORT)

Joining hands with us will support you in (Pre School) complete curriculum.

- Supplementary programs for children (3 to 15) years that can be used through out year.
- Training for parents/teachers.

THE DRAMATIC SHIFT

OUR SESSIONS NOT TO BE MISSED

How is it that children get motivated to do so many things so easily? Also why is it that adults struggle to motivate children. Understand learning process and motivation, for if they are self motivated - our job is done!

MOTIVATION

BELIEFS

If there is one thing that ails the education system it is the strong belief teachers and adults have about children and learning. Can we learn to look at self, children and learning in an unconstrained way, open up mental vistas?

The universal need of all - specially children, is to be understood. And the most important lesson I can give to children is of taking care of oneself emotionally. This session explores how we understand, relate, connect and help children become emotionally intelligent.

FEELINGS

EMPOWERMENT

The main source of learning , growth and achievement is inside me. Child lives out of himself, his unlimited resources. Child believes in himself.

While we work on child's academics, do we consciously work on success skills? How do we develop success characteristics in children via day to day experiences. How do we create such opportunities?

HABITS OF MIND

FACILITATING

Now that we have opened so many windows, We start our journey of experimenting with self to offer the child unlimited learning, unconstrained life. We want to create an environment in which each child will learn what they want to learn and will grow the way they want to grow.

OUTSTATION TRAINING FOR SCHOOL HEADS

A SESSION ON MOTHER'S DAY

UNDERSTANDING HABITS OF MIND

BE THE CHANGE YOU WANT TO SEE

AT HOUSE OF LEARNING

For Teachers:

We kind of untrain teachers from their beliefs and perspectives who are closely associated with kids. We can't even describe you the exciting possibilities that waits for you as you move through our trainings and begin to come over to the other side of your learnings and experiences.

For Parents:

We offer variety of approaches which parents may adopt to deal with their kids differently, and we are sure that these approaches will lead to lot of introspections and you will begin to seriously question your own parenting.

Who are the people behind us?

Sonal Ahuja, calls herself "A Learning Evangelist because that's what she is...a lifelong learner who passionately believes in the power of learning. Supporting effective learning itself is her life. She has diploma's in child psychology and educational psychology from the academy founded in Galway, Ireland, also certified in TTT(Train the Trainer). She is running Shri Ram Foundation pre school since 14 years and regularly conducting trainings for teachers, parents & children. Join her as she explore ideas and ideals about learning, about parenting, about behaviours. There are exciting opportunities for engaging learners today, and it's an exciting time to be engaged in the learning profession! She has conducted workshops on "Preparing against child abuse" in Delhi's major schools which has always been prioritised topic for her to speak on.

Dheeraj Ahuja: "Chase the vision, not the money, the money will end up following you" is the philosophy he firmly believes in. Dheeraj is the Chief Ethics Officer with House of Learning. He empathizes with all, respect their thoughts, and assist them in discovering themselves. He is also the founder of Shri Ram foundation pre school. He uses his voice for kindness, ears for compassion, hands for charity, mind for truth & heart for love. He is the driving force behind the organization.

Dr Bhavna Barmi is the Sr. Clinical Psychologist at Fortis Escorts Heart Institute New Delhi. She is also the founder member and the general secretary of Shwashrit (National NGO), which works for the free literacy and health of the underprivileged. She did her masters in Clinical Psychology from Delhi University and is Ph D in Psychology along with an MPhil in medical and social psychology. She specializes in conducting Stress Management workshops and Life Style management Programs in India and Overseas. She has worked with over 100 schools nationally and lakhs of students in the areas of academic enhancement, stress management, personality development and sexual awareness. Her philosophy is to try to "reach, assist and care" for people by providing solutions to all their psychological problems with utmost satisfaction.

Komal Malhotra: According to her a brand isn't what you say about yourself-it's what others tells about you. Komal Malhotra, is the Chief Listening Officer with House of Learning. She has completed her Masters from Symbiosis Pune, also holder of diploma in International business operations. Prior to HOL she was working with Genpact as Management Trainee. Out of her passion towards exploring something new she joined us and the journey is on...

Vivek Arora, a brilliant performer, uses his outstanding histrionic skills to provide a live experience for all his participants. He has diploma in counseling psychology, diploma in International Marketing from Middlesex Community College, USA and a Bachelor's degree in Business Management from Apeejay School of Management, Delhi, he is also a part of Repertory company at National School of Drama, New Delhi. Vivek has conducted workshops, trained over 35000 employees and consulted companies both in India and in the US. For his trainees, he creates an environment wherein they can visually perceive the problem and are able to relate to it. His training programs have a mass visual appeal which makes the training programs sustain for a long period. Vivek cares passionately about the people he works with and combines his solid experience and depth of expertise with a user-friendly approach.

PARTNER WITH NZTC

Are you trying to extend your personal and professional identity as an early childhood teacher?

Are you interested in exploring the latest knowledge around play-based curriculum?

**New Zealand
Tertiary College**
India

TERTIARY COLLEGES GROUP

Would you like to know more about the world leading early childhood curriculum Te Whāriki?

New Zealand Tertiary College India (NZTC India) provides internationally recognised qualifications from an undergraduate to a postgraduate level that provide knowledge and practical expertise in these areas. Since 2009 NZTC India has been supporting Indian early childhood teachers and their education. The college provides its students with flexible study options via NZTC Online, an online learning platform that enables students to work, study and balance their busy lives.

NZTC India currently offers eight specialist early childhood education qualifications:

- Certificate in Early Childhood Education (Level 5)
- Certificate in Early Childhood Teaching (Level 6)
- Bachelor of Education (Early Childhood Education)
- Bachelor of Education (Early Childhood Education)- Graduate Pathway
- Postgraduate Certificate in Education (Leadership and Management)
- Postgraduate Diploma in Education (Early Childhood Education)
- Master of Early Childhood Education
- Master of Education (Early Childhood Education)

Students studying with NZTC India can avail pathways to study towards completing their qualification in New Zealand. Studying in New Zealand extends their knowledge and practice as students are able to study qualifications that lead to New Zealand teacher certification.

NZTC India graduates follow many different career paths ranging from pre-school teachers to centre managers and heads of pre-schools. Our graduates can often be found working as ECE practitioners in renowned schools providing international as well as national curricula to young children.

NZTC India works with over 30 Educational Partners in India to enable students to seek an internationally recognised qualification in the field of early childhood education.

TESTIMONIALS

AHLCON INTERNATIONAL SCHOOL

Sonal developed and delivered an engaging and valuable workshop for us. What stands out about her is that she is flexible, listens well and was able to adapt her expertise to our group and the individuals within the group's needs. Her experiential approach reinforces learning and provided our participants with much to think about, skills to apply when back in their own workplace and strategies to use when leading and working with their students. Feedback was excellent from all participants.

RAVINODDY PLAY SCHOOL

Sonal delivered a workshop for our parents on Motivation. From the start of the day, right until the end, she created an interactive learning environment that kept the attendees enthusiastic for the subject matter. She achieved this through her informative and engaging delivery style. Feedback from the attendees has been great. Many of them have reported measurable change in their Parenting styles since attending the workshop. We would highly recommend sonal both for her real world practical knowledge and insights and her overall theoretical knowledge and understanding about behaviours.

SALWAN PUBLIC SCHOOL

"It was educational, reflective and fun session". This workshop was very useful. It provided us with new set of tools for day-to-day situations. It taught our teachers about traits in them that they can now apply to their classrooms.

Frequently Asked Questions

Q. How HOL works?

A. We work with facilitators and parents. It is a group of people who either run their own centre or conduct programs for parents, teachers and children in various ventures or work with them as freelancers.

Q. Are the trainings by HOL useful?

A. You experience and make it on your own because actions speaks louder than words.

Q. How economical is HOL?

A. AKSD (Apni Khushi Se Do). We have a standardised amount that we charge but our belief is that you should follow AKSD. Money from you or gain by you through our workshops is equivalent for us.

Q. Is the content or training realistic?

A. Hol is not an artificial or utopia kind of organisation. It actually very closely mimic how real life is- It has a democratic approach that gives the experience to all.
