Dear Sonal,

This gives us immense pleasure to bring in to your notice that you, at a very short notice, conducted a workshop for ECA. It feels good to share with you that your instant energy, enthusiasm, knowledge about the subject made the session lively and interactive.

"I AM CREATIVE" was well explained in all the areas that are relevant for the preschool teachers. Creativity in craft work, singing, speaking, literacy and numeracy was very well understood by them.

We are also proud to say that you have raised the bar of our quality workshops conducted by ECA-Hyd.

We warmly invite to become a member of ECA and help the organization grow in Hyderabad.

Best wishes for your great future.

Future Plans

A teacher should be an individual who is **spiritually positive and emotionally balanced**, who makes learning happen with stimulation and motivation.

My team of IPTTA is made of strong willed women who share a similar vision and passion yet have varied expertise and styles to cater to different aspirant candidates. Our disagreements are in fact healthy, brainstorming discussions that make all of us perform at our best in the interests of IPTTA.

I want to train at least **500 such aspiring candidates every year** who are passionate towards early childhood education, confident of moulding these vulnerable minds into independent and well -balanced individuals and are knowledgeable about the holistic development of children.

As a team our steps are simple yet giving us results and satisfactory growth.

1. We are using the medium of Social Media to reach out to Women, teachers and schools to avail our facilities
2. We have a good-will in twin cities (Hyd & Sec) through quality of our work and our brand Ambassadors (Alumni)
3. We are flexible with charges and more passionate to reach-out
4. We want to create a sharing and caring platform for Pre-primary and primary teachers
5. We have had more than 500 teachers visiting us at our IPTTA - Fest - Exhibition put up by our students every year.
6. We have been travelling to tier 2 & 3 cities as well to conduct workshops

My ultimate dream is to make **IPTTA Synonymous with Teachers training!**

Our vision is to train not only the **existing teachers but also home makers, fresh graduate girls and also aspiring preschool owners**. In short, all those who are interested in early childhood education and child psychology. Women who want to utilize their skills and potential for building the nation by moulding young minds.

Our vision in the next 5 years would be **to reach maximum number of schools** in the twin cities and train their teachers and those who are interested in different areas such as art of storytelling etc. We are also trying to reach out to **distant places by taking virtual training sessions**

We want to cater to every school by providing efficient and well trained pre-primary teachers. We also offer 3 hrs modules for upgrading skills of teachers on various topics throughout the year with a team of confident and efficient trainers!

You and I Magazine – coverage of IPTTA – Fest 3

Sonal Andrews, the director of Integrated preschool teachers training Academy (IPTTA) talks to us about what goes into training teachers to make children's future, the objectives of the organization and its strategies.

How did IPTTA happen?

Integrated preschool teachers training Academy (IPTTA) is a single stop destination for women who are passionate to deal with children (aging 0 to 9 yrs.). IPTTA is born out of a passion, to create facilitators, to guide the future citizens. We aim at training every individual in the field of early childhood. We started our journey as ETTI trainers. We had been training for almost 6 years when they shut shop suddenly and we took this as an opportunity to start IPTTA in a matter of days.

Tell us more about the LETT program?

Let Every Teacher be Trained (LETT) program was started for existing teachers at schools. We found that the people who were most affected were those teachers who did not have training and has no means for the same. Hence we came up with a program just for them.

Your vision for IPTTA in the next 5 years?

Our vision is to train not only the existing teachers but also home makers, fresh graduate girls and also aspiring preschool owners. In short, all those who are interested in early childhood education and child psychology. Women who want to utilize their skills and potential

mandatory) (for hands-on training) (only for 'regular' mode)

A typical day at IPTTA includes:

First half hour of theme based instruction

Next 2 hrs for theory

The last half hour for Spoken English and communication skills
There will be about 10--12 workshops during weekdays taken by experts in their fields. They would on topics like Effective Classroom Management, Child & personality development, Nutrition, Multiple Intelligence, Phonics to name a few. The "distance" (only existing teachers can take up the Distance mode) candidates will also be informed about these in advance and should make every effort to attend these workshops

We also are affiliated to PPTTC and the candidate will have an option to write that exam too by paying the exam fees at the end of the term so making it possible to carry both the certificates. In addition, for the regular batch: (Absolute Mother Friendly) Classes Monday thru Friday from 9 - 12

Tell us a little about yourself as an individual and your journey? After my daughter Nakshatra was born I didn't want to continue my career in medical field. I preferred being at home with her. I came across ECE

for building the nation by moulding young minds. Can you explain about the training course in detail? About our course:

We are affiliated to the AIECCE, New Delhi - as such our diploma (NTT) holders can find placement in India or abroad as a preprimary or primary teacher.

It's a one year course commencing from July/August and concluding in May/June

There are 7 papers for which the theory exam will be held in the month of May/June

The papers include Child Psychology (1A), Child Care and Health (1B), Sociology (2), School organization (3), Principles of Education (4),

Educational Psychology (5), Modern Methods of teaching (Montessori, Project method, Waldorf etc.) (6), Methods of teaching subjects (7). The student will be required to go to a pre-primary/primary school near her house twice a week and observe

training institute and joined it as I wanted to join my daughter's school as a teacher. Destiny had a surprise stored in it for me. I was made faculty there in the same institute and later promoted as coordinator. I also completed my masters in psychology (counseling) to equip me better. ETTI stopped its training program and thus with experienced

colleagues now, I took the leap with a renewed zest. My rock support is my Husband, Dr. Ravi Andrews who believed in my ability and passion to lay foundation of my dream. IPTTA was our brain child, founded in the year 2013.

What are the new teaching techniques that have been opted for children to understand better?

Teaching is like fishing. You use different lures for different fish, you use different methods for different learners. Teaching is like beautiful music where instructional methods are the instruments; when played alone they make sound; when played together in tune, rhythm and feeling, they become amazing music.

Personal Mission Statement

I have a simple need and expectation from people around me, 'to be who they are and to become what they want to be'! I will always be there to support their dreams and stand by to share the burden.

I find my inspiration from every single individual around me. I draw positives from every situation upgrading myself constantly. I do think money is important, however, waking up with a smile on my face seeing my husband and daughter feeling loved and protected around me is most important.

I believe "In the power of a touch, a smile, a kind word, a listening ear, an honest compliment, or the smallest act of caring, all of which have the potential to turn a life around".Let's step back and think who had such an effect on us? A mother, A father, A friend, or A teacher!

A teacher should be an individual who is spiritually positive and emotionally balanced, who makes learning happen with stimulation and motivation.

My team of IPTTA is made of strong willed women who share a similar vision and passion yet have varied expertise and styles to cater to different aspirant candidates. Our disagreements are in fact healthy, brainstorming discussions that make all of us perform at our best in the interests of IPTTA.

I want to train 500 such aspiring candidates every year who are passionate towards early childhood education, confident of moulding these vulnerable minds into independent and well - balanced individuals knowledgeable about the Holistic development of children.

I want my family and friends to love, admire and respect me. Being healthy and happy is the ultimate success for me. My conduct should be such that the mere mention of my name should bring a pleasant smile upon the faces of people who know me.

I want to be known as a mother who raised a girl to become a woman with substance yet with her heart at the right place. I want to be my husband's friend and dream girl forever.

My ultimate dream is to make IPTTA Synonymous with Teachers training!
